

# ***Maiwand - Disaster in Afghanistan***

***Errata 3-17-07***

***This counter was inadvertantly left off the unit counter sheet and should be added to the game.***

***These two counters correct an error in the unit designation. They should replace two units that are marked as Royal Horse Artillery. These guns were part of the "Smoothbore Battery" that had been hastily assembled from Afghan guns and manned by volunteers from the 66th.***

***These counters are printed on adhesive sheets so they can be cut out and mounted to the blank countes included in the counter-mix.***
