Each Cavalry, Infantry and Miner unit has 10 ammo boxes. Each time a unit fires place an [X] in an ammo box. A unit may intentionally fire at half strength (before any modifiers to its combat strength) and mark only half a box with a slash [/]. An [X] is equivalent to one forward and one backward slash. If the last box has a slash the unit may only fire at half strength for its last remaining shot. When all the boxes are crossed out the unit is ammo depleted and cannot fire at all. As units are resupplied from the Pack Train erase the appropriate number of boxes.
